

2025 ENSC 201 WEATHER PROJECT OBSERVATION SCHEDULE

Mon Feb 10 – Thu Feb 13 (inclusive). This schedule repeats each day.

- Only the ENSC 201 students listed below can borrow specific Teaching Lab (Bldg. 8) roof keys. During each observation-hour, students listed under the table's letter and number columns can borrow the matching labelled key. Keys are only loaned to permitted students during their assigned daily time, and key use should be completed within 30 minutes. All keys must be returned shortly after the end of each observation hour. Other students are not issued keys and are not allowed on the roof.
- Security tracks each key loan. Students are expected to leave their student ID card with Security for the duration of each loan. Missing keys will result in Security alerts to instructors who will find the students involved and get the key returned immediately; the students involved will lose course marks.
- Report problems to course Instructors: Chris Jackson: cjackson@unbc.ca 250-960-6438; Peter Jackson: peterj@unbc.ca 250-960-5985; Siraj Islam: Sirajul.Islam@unbc.ca 250-960-5723.
Full Instructor and TA contact information are provided with the student list on the last page of this memo.
