

2026 ENSC 201 WEATHER PROJECT OBSERVATION SCHEDULE

Tue Feb 24 – Fri Feb 27 (inclusive). This schedule repeats each day.

- For each indicated observation hour, the ENSC 201 students listed below can borrow a specific Teaching Lab (Bldg. 8) roof key (identified by letter and number in the columns on the table below). Keys are only loaned to permitted students during their assigned daily time. All keys must be returned shortly after the end of each observation hour. Other students are not issued keys and are not allowed on the roof.
- Security tracks each key loan. Students expect to leave their student ID card with Security for the duration of the loan. Missing keys will result in Security alerts to instructors, who will track-down those involved to return the keys, and students involved will lose course marks.
- Report problems to course Instructors: Chris Jackson: cjackson@unbc.ca 250-960-6438; Peter Jackson: peterj@unbc.ca 250-960-5985; or TAs: Ehsan Taghizadehghoozhd; Kainen Parmar
Complete Instructor and TA contact information is provided with the student list on the last page of this memo.
